Education

California Institute of Technology — Pasadena, California
Graduate Aerospace Laboratories — 2009 – 2016

Ph.D., Aeronautics, June 2016
Dissertation: "Thermal Ignition Using Moving Hot Particles"
Thesis Advisor: Prof. Joseph E. Shepherd

M.S., Aeronautics, June 2010
Academic Advisor: Prof. Joseph E. Shepherd

University of Texas at Arlington — Arlington, Texas
Department of Mechanical and Aerospace Engineering — 2005 – 2009

B.S., Aerospace Engineering, May 2009
summa cum laude
Academic Advisor: Dr. Zhen Xue Han

Academic/National Laboratory Positions

Sandia National Laboratories
Postdoctoral Appointee (April 2018–Present)
Investigating energetic material response to abnormal environments through experimental development and testing and data analysis. Implementing high-speed diagnostics such as Photonic Doppler Velocimetry, high-speed imaging, and microwave interferometry.

California Institute of Technology
Postdoctoral Scholar (June 2017–March 2018)
I designed and constructed a novel experiment to investigate ignition of hydrogen-oxygen mixtures by water-hammer type events in pipes. The experiments indicated that ignition leading to the formation of a flame was possible; however, the surrounding water and pipe walls led to immediate flame quenching.

California Institute of Technology
Postdoctoral Scholar (July 2016–August 2016)
Trained a new graduate student in the image processing techniques and experiment that I developed as a PhD student.

Industry Positions

The Boeing Company
Research Engineer (September 2016–May 2017)

Poster Presentations

[E1] **Stephanie A. Coronel**, Jean-Christophe Veilleux, and Joseph E. Shepherd. "Compression of reactive gas pocket in a water-filled pipe," Women in Aerospace Symposium, Stanford University. 31 May−1 June 2018.

[E2] **Stephanie A. Coronel**, and Joseph E. Shepherd. "Temporal evolution of fluid parcels in reactive thermal boundary layer," Future Fuels Workshop, King Abdullah University of Science and Technology, Thuwal, Saudi Arabia. 7 – 9 March 2016.

[E3] **Stephanie A. Coronel**, and Joseph E. Shepherd. "Ignition of *n*-hexane-air by moving hot particles." Second Annual California Alliance Retreat, Pasadena, CA, USA. 17 – 18 April 2015.

[E4] **Stephanie A. Coronel**, Josué Melguizo-Gavilanes, and Joseph E. Shepherd. "Ignition of *n*-hexane-air mixtures by moving hot sphere." 35th International Symposium on Combustion, San Francisco, CA, USA. 3 – 8 August 2014.

[E5] **Stephanie A. Coronel**, Rémy Mével, Phillip A. Boettcher, Vaughan Thomas, and Joseph E. Shepherd. "Experimental measurement and modeling of hexane-air laminar burning speeds." 34th International Symposium on Combustion, Warsaw, Poland. 29 July−3 August 2012.

Invited Talks

[F1] "Thermal ignition dynamics of reactive environments," Invited Seminar, Department of Aeronautics & Astronautics, Stanford University, 22 April 2019.

[F2] "Thermal ignition dynamics of reactive environments," Invited Seminar, Department of Mechanical and Industrial Engineering, University of Illinois, Chicago, 10 April 2019.

[F3] "Ignition dynamics of reactive gaseous mixtures," Invited Seminar, Department of Astronautical Engineering, University of Southern California, 5 April 2019.

[F4] "Compression of reactive gas pocket in a water-filled pipe," Women in Aerospace Symposium, Stanford University, 31 May−1 June 2018.

[F5] "Thermal Ignition of Gaseous Mixtures: Experiments and Simplified Modeling," Invited Seminar, Department of Mechanical and Aerospace Engineering, University of California, San Diego, 26 February 2018.

[F6] "Thermal Ignition of Gaseous Mixtures: Experiments and Simplified Modeling," Fluids Seminar, Department of Mechanical Engineering, University of California, Berkeley, 22 February 2018.

[F7] "Compression Ignition of Reactive Gas Pocket in Water-Filled Pipe," Fluid Mechanics Research Conference, California Institute of Technology. 6 February 2018.

[F8] "Thermal Ignition of Gaseous Mixtures: Experiments and Simplified Modeling," AME Seminar, Department of Aerospace and Mechanical Engineering, University of Southern California, 24 January 2018.

[F9] "Quantitative imaging of ignition of gaseous mixtures," Invited Seminar, Department of Mechanical Engineering, University of Rochester, 15 December 2017.

[F10] "Thermal ignition by moving hot particles," Invited Seminar, Sandia National Laboratories, Albuquerque, 19 September 2017.

[F11] "Thermal ignition by moving hot particles," Invited Seminar, University of Tennessee Space Institute, Tullahoma, 14 July 2017.

[F12] "Thermal ignition by moving hot particles," Invited Seminar, Sandia National Laboratories, Livermore, 20 February 2017.

[F13] "Thermal ignition by moving hot particles," Invited Seminar, Air Force Research Laboratory, Edwards AFB, 26 May 2016.

[F14] "Thermal ignition by moving hot particles," Thermo/Fluids Research Seminar, Mechanical and Aerospace Engineering Department, University of California, Los Angeles. 13 May 2016.

[F15] "Ignition of n-hexane-air by moving hot particles: mechanism and effect of particle diameter," Fluid Mechanics Research Conference, California Institute of Technology. 15 July 2015.

[F16] "Ignition of n-hexane-air mixtures by moving hot spheres," Fluid Mechanics Research Conference, California Institute of Technology. 28 January 2014.

[F17] "Assessing the risk of accidental explosions in aircraft by heated particles," Women in Aerospace Symposium, Massachusetts Institute of Technology. 18 – 19 April 2013.

[F18] "Ignition of nitrogen diluted hexane-oxygen mixtures by moving heated particles," Fluid Mechanics Research Conference, California Institute of Technology. 19 February 2013.

[F19] "Statistical analysis of spark ignition of lean H_2-N_2O mixtures," Fluid Mechanics Research Conference, California Institute of Technology. 10 January 2012.

Teaching Experience

California Institute of Technology (as teaching assistant)

Ae104, Experimental Methods (Winter 2012)
Graduate level course on experiments in solid and fluid mechanics with emphasis on current research methods.

Ae121, Space Propulsion (Fall 2010, Winter 2011, Spring 2011)
Graduate level course that introduces the fundamentals of chemical, electric and advanced propulsion technologies.

University of Texas at Arlington (as teaching assistant)

MAE 1104, Introduction to Engineering (Spring 2008, Fall 2008, Spring 2009)
Undergraduate freshman-level course providing an overview of engineering and its many sub-fields, ethical responsibilities, creativity, and design.

MAE 1105, Introduction to Mechanical and Aerospace Engineering (Fall 2007)
Undergraduate freshman-level introductory laboratory course.

Mentoring Experience

Silken Jones (Caltech PhD student). Project: Moving Hot Particle Ignition. June 2016−August 2016.

Augustin Nové-Josserand (École Polytechnique MS student). Project: Study of the ignition of hexane-air and hydrogen-air mixtures by concentrated hot surfaces. March 2015−August 2015.

Sebastián Rojas-Mata (Caltech undergraduate). Project: Development of a near infrared two-color pyrometer for non-contact thermometry of moving heated particles. June 2012−August 2012.

Professional and Service Activities

Conference Session Chair
11th U.S. National Combustion Meeting (2019)
International Symposium on Combustion (2016)
International Colloquium on the Dynamics of Explosions and Reactive Systems (2015)

Professional Affiliations
Member, The Combustion Institute
Member, Society for Advancement of Chicanos/Hispanics and Native Americans in Science (SACNAS)
Member, American Association for the Advancement of Science (AAAS)
Member, American Physical Society (APS)

Journal Reviews
Fuel
Experimental Thermal and Fluid Science
Combustion Science and Technology
Proceedings of the Combustion Institute

Conference Reviews
International Colloquium on the Dynamics of Explosions and Reactive Systems paper reviewer
Asia-Pacific Conference on Combustion paper reviewer
SACNAS presentation abstract and travel scholarship reviewer

University Service
Student Volunteer, Graduate Student Orientation at Caltech. September 2010.
Student Host, GradPreview Day at Caltech. 2009 – 2011.
Webmaster, American Society of Mechanical Engineers UTA student section. 2008 – 2009.
President, American Society of Mechanical Engineers UTA student section. 2007 – 2008.
Secretary, American Society of Mechanical Engineers UTA student section. 2006 – 2007.

Community Service
Volunteer Instructor at HMTech; taught "Mathematics in the Real World" to high school students during the summer of 2018.

Awards and Honors

Duncan Rannie Graduate Fellowship, California Institute of Technology, 2009 – 2010
Moore Foundation Minority Undergraduate Research Fellowship, Summer 2008
Outstanding ASME Student Member, University of Texas at Arlington, 2008
University of Texas at Arlington Academic Achievement Scholarship, 2007 – 2008
Student Alumni Sophomore Scholarship, University of Texas at Arlington, 2006 – 2007

Skills

Computer
Cantera, Python, Matlab, SolidWorks, LabVIEW, LaTeX,

Laboratory
High speed data acquisition, Schlieren visualization and interferometry, laser absorption spectroscopy, high-power laser operation, pyrometry, photon doppler velocimetry, mechanical design, plumbing design, electronic control system design

Miscellaneous
Bilingual in English and Spanish
